

Guernsey (Channel Is.) Landscapes Series

An ideal introduction for the first-time visitor, this book also provides new ideas for those who come year after year. Apart from marvellous coastal scenery that's been compared to that of Cornwall and Brittany, there is much to explore of the island's past. For example, you could follow some of Guernsey's green lanes and water lanes centuries-old paths once used by pack-horses and donkeys, or follow a route that takes in the relics of prehistoric burial grounds as well as remnants of the German Occupation during World War II. Guernsey cliff walks, with steep climbs and lots of steps, are quite challenging, but elsewhere walking in Guernsey is very easy the terrain is almost flat and ideal for the casual stroller. Area covered: all of Guernsey, plus the nearby islands of Alderney, Sark and Herm. Best time to walk is in the spring, especially April/May when the spring flowers are out. But walking is enjoyable through to October, and even in the winter months if you don't mind showers and bracing breezes.
