

Cool Soapmaking: The Smart and Simple Guide to Low-Temp Tricks for Making Soap with Milk, Citrus, Cucumber, Pine Tar, Beer, Wine, and Other Special Ingredients (Smart Soap Making Book 5)

SPECIAL NOTE! -- ANNE WILL PERSONALLY ANSWER ANY QUESTION OF YOURS AFTER READING THIS BOOK. ASK ON HER WEB SITE, AND YOU'LL NORMALLY HEAR BACK WITHIN HOURS!

Soapmakers may love to add a variety of materials to soap, but they find that some cause more trouble than others. In the heat of the chemical reaction, an ingredient might discolor, or lose its scent, or develop a bad smell. Or it might cause problems during soapmaking, giving off noxious fumes, or making the soap harden so fast that there's no time to pour it in the mold. Help has arrived. Anne L. Watson extends the low-temp techniques from her book Milk Soapmaking to making soap from a variety of special ingredients, including cucumber, citrus, pine tar, beer, and wine. Soaps that have long challenged home soapmakers will now pose no problem at all. //

Anne L. Watson is the author of the wildly popular and widely acclaimed beginners book Smart Soapmaking and its companions, Milk Soapmaking and Smart Lotionmaking. She has made soap professionally under the company name Soap Tree, and before her retirement was a historic preservation architecture consultant. Anne's other published books include Baking with Cookie Molds and several novels. Anne, her husband, Aaron, and their cat, Skeeter, live in Friday Harbor, Washington.
