

Salsa!...or Everything Your Mother Never Told You About Salsa Dancing! (The Little Book of Dancing) (Volume 1)

Advance praise for Salsa! from around the world...Fun, pleasant, enjoyable and uplifting reading experience. This book gives me an immediate inspiration to join in the next salsa class and be proud of what I am and love doing - dancing! I am not a great dancer, but I have a great desire to be one, and this book helped me to believe that there is nothing to stop me becoming one! An inspiring, easy-to-read, adorable little book with a fine sense of humour and lots of knowledge, tips & advice... If I never danced salsa before, I would certainly start after reading your book!!! Great appraisal for Salsa! The book gives you an idea not only about dancing, the moves and the origins, it opens the door to essential understanding of hidden messages and interpretations of a dance as a living dialogue between two souls and bodies. If you want to learn how to read people on a dance floor, what to expect from other dancers, and how to respond accordingly, this is a book for you! The beautiful way of putting moves into words that could never have been! Whether you are a total beginner, or a dancer with years of experience, or someone who has nothing to do with dancing - this book has something for everyone to read, enjoy and smile.
