

Murrays Handbook for Belgium and the Rhine: With Travelling Map (Classic Reprint)

Excerpt from Murrays Handbook for Belgium and the Rhine: With Travelling Map Owing to the number of English who now go abroad, these circular, letters can no longer be expected to serve as a private letter of introduction but it is of no slight importance in many cases of difficulty to the stranger, in a strange place, to be able to produce a reference to some person of respectability; and the parties to whom these letters are addressed are usually ready to afford friendly advice and assistance to those who need it. I have found English Bank-notes very convenient in Belgium and all parts of Germany. The exchange is somewhat lower than for Circular Notes, but the stamp-duty may be set against the difference. It is advisable to take a small supply of English gold to pay the expenses in the steamboat and on landing, as well as to guard against running short of money in places where circular notes cannot be cashed. English sovereigns bear a high premium all over Germany, and in shops and inns at all the large towns they ought to be taken at their full value.
